Hello,

The judge has specifically ask us to find a solution that allows this organization - teamrubiconglobal.org - to regain access to its email. Please see attached the endorsed memo from the Judge. This matter is extremely urgent and may impact our standing with the court. Can we arrange a call asap to discuss?

Opposing counsel has directed us to include ceoteam@godaddy.com and landerson@godaddy.com

Hi, Kelly....

To clarify my request, I was asking for a listing of the previous values to better understand the domain's mail configuration prior to termination of service. I specifically stated that the "A" and other non-mail related records should remain disabled. If you are unable to provide the list of previous values, please proceed with the implementation of the MX records I provided in my last message and we'll follow-up again if we find that additional records are needed. Thanks.

Hello Jeremy,

We are unable to revert the update, as this would allow the domains to be operational making us non-compliant with the order.

We cannot provide the previous DNS settings.

Kindest regards,

Kelly R.

Hi, Kelly...

With respect to my previous inquiry:

We'd like to have the MX records for teamrubiconglobal.org restored to allow their users to send and receive email. Depending on whether or not they have any SPF or DMARC TXT records, or CNAMEs for DKIM signing, those would likely need to be restored as well. All "A" and other records not related to email send/receive should stay disabled. Please let us know how we can best accomplish this. Thanks.

Are you able to provide a listing of the records previously configured for this domain? Reason being I can list the MX records which need to be restored, and have done so below....however I don't have copies of any SPF or DMARC TXT records, or any DKIM CNAMEs which may have been in place which may be required for proper email operation. Please let us know if this is something better handled via a quick phone call. Thanks.

MX records to restore for teamrubiconglobal.org:

Host	Pri	Points to address	TTL
@	1	aspmx.l.google.com.	300
@	5	alt1.aspmx.l.google.com.	300
@	5	alt2.aspmx.l.google.com.	300
@	10	alt3.aspmx.l.google.com.	300
@	10	alt4.aspmx.l.google.com.	300

Laurie,

Disregard my last email. I am now learning that I misinterpreted the UK's issue. Would you be able to hop on a phone call with me and my IT administrator, [@Jeremy Neal](#) to discuss a solution to the issue?

Hello,

Thank you for taking swift action. Can you confirm that you have only taken action against teamrubiconglobal.org and .com? We are receiving an indication from another affiliate, Team Rubicon UK (www.teamrubiconuk.org) that they have lost access to their DNS.

This is an urgent matter. If you could address immediately it would be greatly appreciated.

Dear Jake,

Thank you for pointing out the verbiage.

We have suspended the DNS for the listed domain names and they no longer resolve. As the order does not specify the transfer of the domain names, we will not be able to transfer them. We understand there is an ongoing case. If you seek transfer of the domain names to your control, please ensure they are listed in the final order with instructions to transfer to your control.

Best,

Hello,

Domain Names: TeamRubiconGlobal.org and TeamRubiconGlobal.com

Page 16 of Enc 2:

(iv) registering any domain name that contains the TR Marks or any misspelling or variation of those marks, or any domain name confusingly similar to those marks; (v) operating or authorizing the operation of any website using any domain name incorporating any of the TR Marks or any misspelling or variation of those marks, or any domain name confusingly similar to the TR Marks;

We ask that you immediately pull down these websites and transfer ownership of the domains to Team Rubicon, Inc (we are the rightful geistrant per the original master trademark license agreement signed . @Jeremy Neal, copied, can help with this latter request.
